COURSE CONTENT:

Students will explore drawing as a way of seeing and describing as well as a way of discovering and developing ideas. Through a series of projects and exercises, students will experiment and practice with materials and techniques, observe the physical world, develop a visual vocabulary to gain an understanding of the concepts underlying criticism of art.

COURSE OBJECTIVES:

1. To gain a control of representational drawing skills.
2. To understand and manipulate proportional relationships from actual objects.
3. To manipulate the formal elements and principles to achieve better design solutions.
4. To understand the importance and control of good craftsmanship and presentation skills.
5. To gain a basic understanding of the concept and application of one and two point perspective.
6. To gain a basic understanding of the concepts of drawing and a working knowledge of the media and techniques basic to drawing.
7. To develop the vocabulary necessary for critical analysis of drawing as a visual art.

COURSE REQUIREMENTS:

Six hours of in class studio participation is required as well as at least three hours of outside productive work per week (perhaps more depending upon work habits). Outside class work will include completion of the drawing projects, weekly sketches and other assignments.

Grades will be based on skill level, creativity, progress made, neatness and meeting of deadlines. Work must be turned in on time. A due date will be given with each assignment. Work that is late will be graded down one letter grade per class for missing deadlines. Three assigned sketches will be collected weekly for 10 weeks, as regular homework. There will be two vocabulary quizzes; vocabulary study sheets will be provided. A midterm progress grade will be assessed, based on class drawing projects, class work.

ATTENDANCE POLICY: SIGN-IN EVERY CLASS!!!
